Comment. The trains possibly carried ground personnel of an air force unit newly transferred from the U.S.S.R. to the Soviet Lone of Germany. A train of similar composition went toward Koethen via Krestrin on 14 Kovember. See A report of 25X1A 16 Kovember stated that about 30 jet planes of undetermined origin were newly stationed at Koethen airfield. The aforementioned rail movements indicate the possibility that the new air force unit at Koethen airfield arrived from U.S.S.R.
